* Unlike those who charge upward of \$3,000 for a small website, plus additional ongoing fees each month, the 3 options on this page (above) only incur a relatively small upfront fee, then small monthly fees to cover the basic-level ongoing costs. Each option is a minimum 24 month contract. Fees are reviewed every 6 months and are subject to change ONLY if we need to. We keep our fees as low as possible for all our customers. Side note: Domain Name Registration, Domain Name Renewals, Website Writing Services and Email Services are separate fees.
